

Roadmap to Future

Key Milestones

- **2025 Q3:** Enhanced reasoning modules integration
- **2026 Q1:** Microservices architecture transition
- **2026 Q3:** Plugin system launch
- **2027 Q1:** Multi-model AI integration
- **2027 Q4:** Autonomous learning capabilities

Ultimate Vision

Advisor AGI will evolve into a comprehensive advisory system that:

- Provides personalized, domain-specific advice across multiple fields
- Continuously learns and improves from user interactions
- Maintains transparency and ethical standards
- Serves as a trusted advisor for complex decision-making

Implementation Strategy

- Iterative development with continuous user feedback
- Modular approach enabling independent component evolution
- Open architecture supporting third-party contributions
- Regular architecture reviews and optimization
